

WHAT ARE YOU MEASURING?

Fischer Instrumentation
Measuring Made Easy since 1953

fischer®

Is your process in control?

Helping you with quality and inspection testing

A member of the Helmut Fischer Group, with our manufacturing base in Germany, we offer easy-to-use, specialist instruments to help you more accurately and reliably measure:

- Coating Thickness (Dry Film Thickness)
- Material Analysis (Composition)
- Material Performance (Hardness and Scratch Test Measurements)
- Electrical Conductivity
- Ferrite Content
- Surface Profile
- Dew Point
- Calibration Foils and Standards for QUALICOAT, QUALINOD, ASTM, BS, NADCAP, DIN, and ISO 17025 accreditation

Our range includes Hand-Held Gauges and Probes, Bench Top X-Ray (Energy Dispersive X-Ray Fluorescence) & Nano Indentation Instruments, and Inline Automation Measurement Solutions.

Ask us about our finance options!

We support customers in the following sectors:

- Aerospace & Aeronautics
- Automotive
- Chemicals, Petro-chemicals & Mining
- Construction & Infrastructure
- Engineering
- Electronics, PCB & Semi-Conductors
- Electroplaters
- Fasteners
- Food & Beverage
- Galvanising & Anodising
- Gold, Watches, Jewellery & Precious Metals
- Marine & Transportation
- Medical and Pharmaceutical
- Oil & Gas and Solar Power Generation
- Paints & Varnishes
- Powder Coaters
- Recycling

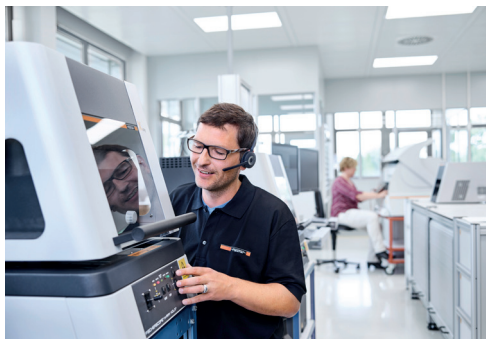

With a newly equipped facility in the Midlands, Fischer offers:

- Accessories, Calibration Foils and Standards
- Fully Equipped Service Centre & Parts
- Instrument Repair and Maintenance
- Preventative Maintenance Service Agreements
- Process Control and Optimisation
- Product Demonstration Centre
- Sales Support
- Sample Testing
- UK-based Telephone Support

Available training, webinars and white papers:

- Fundamentals of ED-XRF and Electroplating Challenges
- Coatings and how to measure them?
- What is XRF?
- Calibration and operation of XRF
- Ultimate guide to Measuring Coating Thickness
- Tactile Coating Thickness Measurements
- Hands-on practical workshops

Testing, measurement, inspection, standards and conformity assessment, provide tools to deliver supply chain confidence and can be used to support semi-finished goods with certified and traceable data.

You can find us in:

AFRICA | ASIA | AUSTRALIA | EUROPE | NORTH AMERICA | SOUTH AMERICA

With a strong commitment to service and quality, we pride ourselves in delivering innovative solutions and making measuring easy!
